8	ffff0			but is not essential to core library operations.
9	8	Chatbot for user assistance	Could-Have	Provides automated assistance, but adds integration and maintenance costs.
10	9	Mobile app version	Won't-Have (initial release)	A separate app can significantly increase development costs and time. A mobile-friendly website can be considered first.
11	10	Multi-language support	Should-Have	Improves accessibility for diverse users. Feasible if planned early, but requires translation and testing
